OK @EduTECH_AU people (and the universe)...

If I say "Analytics and Artificial Intelligence" in Education, what ideas and feelings spring to your mind?? We'll review responses on Friday 2.50pm... #EduTECHAU

Join CIC's Director Simon Buckingham Shum at @EduTECH_AU in conversation and on stage Fri 7 June, Sydney International Convention Centre edutech.net.au/speaker-simon-…
“Learning analytics has potential for doing real good as it has human oversight and (hopefully) can be moderated …but I assume AI does not.”

“I asked Twitter and Facebook…”

“under-exploited, and over-sold […] The key issues of curriculum, pedagogy and assessment still loom large.”

“The potential to misinform/misinterpret seems worrying”

“potential for access, equity and excellence in education”

“unfulfilled potential, boundless possibilities, with just a hint of trepidation”

“access, equity” in education

“Shudder”

Student and parental concerns about personalised learning platforms

Students’ letter to Zuckerberg:

“Unfortunately we didn’t have a good experience using the program, which requires hours of classroom time sitting in front of computers. […]

Most importantly, the entire program eliminates much of the human interaction, teacher support, and discussion and debate with our peers that we need in order to improve our critical thinking.”

Teachers union concerns about personalised learning platforms

Personalised feedback on high performance teamwork

Who did what, when in a nursing simulation? Team Timeline for evidence-based debriefings

Personalised feedback on high performance teamwork

https://cic.uts.edu.au/personalised-feedback-to-nursing-teams
Student reaction to automated feedback on teamwork

"This tool helped me have quantitative data to reflect on. I can actively look back and see my exact actions, not just other perceptions of it"

“…while RN4 and RN2 were doing the fluids I was staying with the patient. It is good to step back and look at what each person was doing, one thing at the same time, I think it shows you how you worked as a team”

Educator reaction to automated feedback on teamwork

“I think it would be really helpful for students … if you gave them really structured reflection questions … and asked them to reflect on what they were doing — whether it was accurate or not, how they’re engaging with the patient and other team members, what they were thinking and feeling at the time — it would be a really valuable tool for deep reflection.”

Instant feedback on academic writing

AcaWriter: how we introduce students to automated feedback on their writing

https://youtu.be/xUoe3c0ErSY
Maintaining learner agency in response to AI

The rhetorical moves highlighted by AcaWriter are used in good academic writing but use them with caution according to the context. Remember, AcaWriter does not really understand your writing, the way people do. You may have written beautifully crafted nonsense - that's for you to decide! Moreover, writing is complex, and AcaWriter will get it wrong sometimes. If you think it got it wrong, that's fine - now you're thinking about more than spelling, grammar, and plagiarism.
Educator: AcaWriter supports professional reflection by Pharmacy students following work placements

Writing Context – Postgrad. Pharmacist reflection

Assessment Rubric

<table>
<thead>
<tr>
<th>Stage 1: Returning to experience</th>
<th>Non-Reflector (0 Marks)</th>
<th>Reflector (0.5 Marks)</th>
<th>Critical Reflector (1 Mark)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Statement does not provide a clear description of the learning event itself.</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Stage 2: Attending to feelings</th>
<th>Statement provides some personal feelings and thoughts of the learning event but does not relate to personal learning.</th>
<th>Statement conveys personal feelings, thoughts (positive and/or negative) of the learning event in relation to future personal learning.</th>
</tr>
</thead>
</table>

<table>
<thead>
<tr>
<th>Stage 3: Association: relates new knowledge with previous knowledge</th>
<th>Statement provides evidence that prior knowledge may be consistent with new knowledge gained through this task.</th>
</tr>
</thead>
</table>

<table>
<thead>
<tr>
<th>Stage 4: Integration</th>
<th>Statement clearly outlines new knowledge learned with previous knowledge and explains how accommodating new knowledge will aid in future clinical pharmacy practice.</th>
</tr>
</thead>
</table>

<table>
<thead>
<tr>
<th>Stage 5: Evaluation</th>
<th>Statement clearly outlines self-reflection and self-assessment of previously held beliefs, assumptions, approaches, and occasionally relates it to previous experiences.</th>
</tr>
</thead>
</table>

<table>
<thead>
<tr>
<th>Stage 6: Appropriation: Internalising the knowledge gained in the learning event</th>
<th>Statement clearly outlines self-reflection and self-assessment of previously held beliefs, assumptions, approaches, and occasionally relates it to previous experiences.</th>
</tr>
</thead>
</table>

**Important aspects of reflective writing:**

- Initial thoughts and feelings about a significant experience.
- The challenge of new surprising or unfamiliar ideas, problems, or learning experiences.
- How new knowledge can lead to change.

**Bold:** Deeper reflection, personally applied.

**Plain:** Expressions indicating belief, learning, or knowledge.

**Dotted:** Expressions indicating self-critique.

**Dashed:** Words associated with strong feelings.
It is hard to believe that I started placement almost three months ago. It has definitely been full of challenging experiences which have shaped my understanding of the role of a pharmacist. During my time at Pharmacy I was able to observe different sides of pharmacy including pharmacist-patient interactions, retail, administration and the clinical aspects. To be honest my first thoughts going into placement were negative. I dreaded the idea of having to interact with patients as well as engaging with employees of the pharmacy. I felt that my lack of experience would cause an inconvenience and I would leave a negative impression in front of the pharmacist and other employees. However, I came to realise that my preceptor is an exceptional teacher and as the weeks progressed I begun to look up to him as a mentor. Despite my lack of experience my preceptor ensured I observed different counselling situations and even encouraged me to engage directly with patients from the early days of placement. By allowing me to engage with patients I have been able to build on important communication skills. My preceptor would also observe my weaknesses and bring them to my attention so that each week we would work on overcoming my weaknesses and turning them into strengths.
AcaWriter feedback tuned for Pharmacy reflection

- It appears that you’ve acknowledged your first thoughts, feelings and/or reactions to an incident, or learning task, within the first paragraph.

- Well done, it appears that you’ve reflected on how you would change/prepare for the future. Is there anything further to say about these new insights that have led to change.

- While it appears that you’ve reported on how you would change/prepare for the future, you don’t seem to have reported first on what you found challenging. Perhaps you’ve reflected only on the positive aspects in your report?.
Instant feedback on academic writing
→ persuasive, argumentative
A hallmark of academic writing is that it works with ideas.

Such writing typically displays specific “rhetorical moves”—a clear signal to the reader what the sentence’s purpose is in the persuasive narrative, e.g.

**Contrast**

“However, a recognized challenge is…”
“Despite repeated efforts…”
“Although it was predicted that…”
Signalling to readers that we’re “working with ideas”
Archetypal rhetorical moves made in academic writing

Educator: explains to her students why good lawyers know how to use rhetorical moves

“[rhetorical moves] indicate to the reader the writer’s attitude to the text. Why do we worry about that? Because as lawyers, our job is to […] argue that the way that we see the facts and the law favours a certain position or outcome.”
<table>
<thead>
<tr>
<th>Rubric Element</th>
<th>AcaWriter Tag</th>

AcaWriter feedback tuned for Civil Law

NOTE: Computers don’t understand writing like humans. So, AcaWriter may highlight rhetorically good sentences that actually make no sense, or leave un-highlighted a sentence that you feel is really good. It’s fine to disagree with the feedback — but it’s also your job to check your facts!

Analytical Report

The analytical report highlights salient rhetorical moves AcaWriter identified in your essay for reflection. For more specific feedback, go to the Feedback tab.

Rhetorical Moves

- B Summarises or signals the authors goals
- C Novel improvements in ideas
- D Perspective or stance
- E Emphasis to highlight key ideas
- F Contrasting idea, tension or critical insight
- G Background information and previous work
- H Surprising or unexpected finding
- I Question or gap in previous knowledge
- J Trend or tendency related to ideas

Technology is an enabler in providing greater access to justice through its ability to connect people with legal needs to legal assistance, information, and advice. With the increasing popularity of internet-enabled hand held devices and laptop computers, there is a tendency to assume that even the socio-economically vulnerable in our society have access to technology and the skills to use online services with confidence. This is not necessarily the case. Examples of the application of technology to provide legal information and assistance include case studies, guides and virtual legal advice clinics. The 2012 Review does not address the role of courts in serving the legal needs of the community. The court system is not regarded as a part of the wider legal assistance services. This omission questions the role of the court in facilitating access to its services, including dispute resolution and trials. It also identified uses of technology to expand the delivery of services, many of which are transferable to an online court. These services include e-access for remote communities, availability outside of business hours, interactive processes and virtual appearances. This essay will discuss uses of technology to expand the delivery of services, many of which are transferable to an online court.
AcaWriter feedback tuned for Civil Law

The rhetorical moves highlighted by AcaWriter are used in good academic writing but use them with caution according to the context. Remember, AcaWriter does not really understand your writing, the way people do. You may have written beautifully crafted nonsense - that's for you to decide! Moreover, writing is complex, and AcaWriter will get it wrong sometimes. If you think it got it wrong, that's fine - now you're thinking about more than spelling, grammar, and plagiarism.

It looks like you are missing a Summary move that highlights the purpose (thesis) statement of your essay and your essay plan. Try including linguistic cues to make this move clearer in your writing. Examples: This essay talks about..., In this essay, I analyse..., This essay consists of three parts..., The first part talks about..., In conclusion,...

It looks like you are missing a Background move in your text, which highlights background information and previous literature on the topic. Try including linguistic cues to make this move clearer in your writing. Examples: The past decade has seen..., Recent studies indicate..., It is generally accepted that..., the concept has previously been thought to be...

It looks like you are missing Contrast/Question move, which highlights the critical insights in your essay. Try including linguistic cues to make this move clearer in your writing. Examples: However, the issue seems to be..., the study fails to consider, little research has been done..., ...raises various questions...
What does success look like?

- The writing exercise was meaningful without AcaWriter, but with AcaWriter it was rated significantly more useful.
- Students who used AcaWriter made significantly more academic rhetorical moves in their revised essays.
- A significantly higher proportion of AcaWriter users improved their drafts (many students degraded them across drafts).
- Students who used AcaWriter produced higher graded submissions if they engaged deeply with AcaWriter’s feedback.
What does success look like?
Students feedback on AcaWriter

“It's like having a tutor or another person check and give constructive feedback on your work.”

What does success look like?
Students feedback on AcaWriter

“When you’re editing your own writing, you automatically think that your work sounds good and that all your ideas and views have been clearly conveyed. This exercise was useful in the sense that it indicated areas where I needed to be more explicit, which on my own I would not have noticed.”

What does success look like? Students feedback on AcaWriter

“I think what is being taught is something I was already aware of. However, by being forced to actually identify ways of arguing, along with the types of words used to do so, it has broadened my perspective. I think I will be more aware of the way I am writing now.”

What does success look like?
Academics feedback on AcaWriter

“We can’t afford to give formative feedback when we have 400 students because it already takes us maybe about 20 hours to mark one class of these assignments — and so we can’t have the tutors spend that time again giving formative feedback. So, we had to do it in a way that is time-efficient.”

What does success look like?

Educators’ feedback on AcaWriter

“Overall, since we’ve been working with CIC around written communication over the course of the last four of five semesters, we have seen marked improvement in students’ written communication. Overall their individual assignment pass-rate is going up... We are seeing improvements in the number of students who are either meeting or exceeding the expectations around written communication”

That’s just 2 examples: 2 more to check out from UTS research into the future of assessment.
